ITEM 1

Deployment Working Group Reports

Colonel McFarland reported on results of the 28 March 1961 USIB Meeting at which the GMAIC/DWG studies on MRBM deployment in East Germany and the European Satellites were considered. GMAIC's recommendations were adopted as to the disposition of these studies. GMAIC Members were requested to notify the Secretariat as to their requirements for copies.

ITEM 2

ITEM 3

Nth Country Estimate

Colonel McFarland noted that the pending Nth Country missile estimate desired by State Department is now scheduled for the 3rd quarter of 1961. GMAIC Members were asked again to check their resources in this area. An estimate on [REDACTED] will almost certainly be made much sooner, but the exact form, scope, etc., is presently uncertain.

ITEM 4

25X1B

ITEM 5

Major Wills reported on a recent re-evaluation of two locations by the Deployment Working Group. While judgments have changed somewhat, there is still considerable lack of agreement among DWG Members as to the status of these locations.

25X1A

ITEM 6

[REDACTED] recommended a study of Soviet space/military requirements by GMAIC. It was agreed that a series of briefings by U.S. research and development organizations and by ATIC and Army intelligence should be scheduled as a start on the problem.
